CONTACTING A NEW PROVIDER

Creating your own care plan can be difficult. Enlist a friend or family member to help you, and feel free to call Perinatal Support Washington's Warmline for help creating an individualized care plan.

Locating a new provider can also be challenging. It is important to feel comfortable with a provider, but stick to discussing logistics at first. Once you know they take your insurance and have appointments available, then you can share more about your story and see if they are a good fit for you.

What to have on hand when you call a new provider:

- Insurance or health care card
- List of current medications

Questions to ask:

- Do you have experience with postpartum mood and anxiety disorders?
- Do you take my insurance?
- What is your experience working with families of color?
- Can I bring my baby?
- Can I bring someone else (partner, parent, friend, doula) to the session with me?
- When is your soonest appointment?
- Do you do phone appointments (Note that insurance often won't cover this.)

Snoqualmie Behavioral Health.
